FOREWORD

The "*2005 Statistical Information for Municipalities in the Province of Manitoba*" provides statistical highlights and financial statistics compiled from the 2005 audited financial statements of all 199 municipalities in the Province of Manitoba. The publication will serve as a reference to municipal officials to support program review and service improvement initiatives in their municipality. Universities, research groups and others will also find the publication a useful tool toward better understanding the finances of municipalities in the Province.

The Executive Summary presents statistical highlights for all municipalities and includes:

- Changes in municipal population;
- Changes in budgeted municipal expenditures 2005 (budgeted) – 2006 (budgeted);
- Municipal expenditures by category as a percent of total expenditures and per capita;
- Municipal expenditures on general government administration;
- Municipal property tax changes 2005 – 2006 (budgeted);
- Municipal revenues by source as a percent of total revenues and per capita; and
- Municipal residents per elected official.

The Financial Statistics section groups municipalities by type and population size to facilitate more relevant comparisons between comparable municipalities. This section provides a detailed breakdown of municipal revenues, expenditures and other data from 2005 such as taxable assessment, operating surpluses and reserve funds, indicating:

- Increases in municipal taxes ranged from 0.1% to 25%, with over half of municipalities increasing taxes 3% or more;
- Increases in municipal expenditures ranged from 0.1% to over 85%, most increasing expenditures 3% or more;
- Total taxable assessment for all municipalities increased 1.7% over 2004;
- In 2005, total reserve fund balance ranged from $2,000 to $658 million, with over half of municipalities seeing an increase over 2004; and
- 73% of municipalities reported an operating surplus in 2005, no change from 2004. Operating surpluses ranged from $100 to $786,800.

"*2005 Statistical Information for Municipalities in the Province of Manitoba*" will be useful for municipal officials exploring new approaches to managing change and considering opportunities to enhance municipal effectiveness and efficiency, such as intermunicipal partnerships or municipal restructuring.
